

ATLAS METAL

*making metal personal*

## WE'RE HERE TO HELP WITH INFINITI FIT.

Hi, we're Atlas, and we know that more than ever, today's foodservice landscape calls for flexibility. We strive to be a hands-on partner who can help you solve current challenges with versatile solutions. That's why the NSF-certified INFINITI FIT modular serving line is built to evolve with you and your operation.

*The INFINITI FIT line's wide range of premium stainless steel units lets you choose and customize what you need now, and then easily add to it later. Plus, its maneuverability allows for thorough 360° cleaning and social distancing setups when necessary.*

# MODULAR'S TIME TO SHINE.

INFINITI FIT showcases our company's dedication to handcrafted quality and long-lasting durability. Be bold with your vision and watch as this beautifully functional line fits right in.

- **Streamlined style.** Clean lines, hidden-frame stainless steel construction and our proprietary “locking horns” technology deliver visual appeal and a tight, solid feel.
- **Customization plus safety.** Countless combinations of laminates and food guards allow you to create a high-end aesthetic, while also maintaining safety for customers and staff.
- **Hands-on craftsmanship and service.** Features like all-welded, 16-gauge stainless steel construction and heavy-duty casters ensure long-lasting performance. And as always, our team is here every step of the way to make sure your team is good to go.
