## SELF LEVELING DISPENSERS

MCR-2020

# RACK DISPENSER

Mobile Cantilever  
Rack Dispenser

MCR-1020

MCR-2020

### SPECIFICATIONS

The construction of the model MCR consists of a stainless steel exterior base, top and cabinet housing, all welded. The base shall be heavily reinforced with support channels for added strength.

**HANDLE:** Shall be 1" O.D. stainless steel.

**TRAY CARRIER:** The cantilever tray platform shall be constructed of grade 18-8 stainless steel.

**SELF LEVELING:** Dispensing height shall be adjustable by adding or removing extension springs located behind the removable access panel of grade 18-8 stainless steel. The cantilevered platform shall be self leveling with heavy duty bearings and bearing guides.

**CORNER BUMPERS:** Shall be gray non-marking vinyl attached securely to the base.

**CASTERS:** Shall be 4" swivel heavy duty with optional brake.

*Specifications subject to change without notice.*

### STANDARD FEATURES
